JOIN THE TEAM

We are BASF in agriculture and everything we do, we do for the love of farming. Connecting seeds and traits, crop protection products, digital tools and sustainability approaches, to help deliver the best possible outcomes for farmers, growers and our other stakeholders along the value chain. We do everything in our power to build a sustainable future for agriculture by connecting innovation, customers and society. #ForTheLoveOfFarming #TheBiggestJobOnEarth

RESPONSIBILITIES

Agriculture is changing. Agriculture demands new solutions. Agriculture is becoming digital. This is our motivation. Join our team starting in February or March 2025 and help shape the future of crop production.

Outstanding students have the opportunity to extend their collaboration through a thesis project.

- You gather and manage information for the successful execution of agricultural field trials.
- Your area of responsibility also includes creating tasks in the xarvio Field Manager for various trials according to experimental protocols.
- You assist in the exchange of information with partner farmers from the On-Farm Development network.
- Additionally, you review and analyze the trial data generated in the field.
- Last but not least, you support fieldwork activities, such as assessing plant diseases.

QUALIFICATIONS

- enrolled student in agricultural sciences or a related field of study
- experience with modern agricultural technology
- class B driving licence
- certificate of competence in crop protection and driving licence class T are desirable
- very good communication skills in German and English

BENEFITS

- Practical phase - actively apply theory in challenging and varied tasks/projects
- Teambuddy - contact person for all questions and regular feedback
- Networks - get to know different perspectives, ways of thinking and fields of work
- Internship compensation - a recognition of the commitment in the amount of 1000€ to 1500€
- Flexible working hours - depending on the location and area of work

xarvio Digital Farming Solutions powered by BASF is at the forefront of the digital transformation of agriculture optimizing crop production. xarvio offers digital products, based on a global leading crop model platform, which deliver independent field-zone-specific agronomic advice enabling farmers to produce their crops most efficiently and sustainable. The xarvio products FIELD MANAGER and HEALTHY FIELDS are being used by farmers in multiple countries across the globe. Working at BASF Digital Farming GmbH is equally as innovative as our products: we have a global network and work with agile methodologies in a start-up atmosphere. Join our team! Learn more about xarvio at www.xarvio.com or visit any of our social media channels.

At BASF, the chemistry is right.

Because we are counting on innovative solutions, on sustainable actions, and on connected thinking. And on you. Become a part of our formula for success and develop the future with us - in a global team that embraces diversity and equal opportunities irrespective of gender, age, origin, sexual orientation, disability or belief.
