| Georg-August-Universität Göttingen Module M.EuCu.19: Eurocompetence I: Studying and Working in Europe | | 5 C 2 WLH |
| Learning outcome, core skills: This is the first of three seminars in the "Eurocompetence"-scheme. It is to prepare students for a future employment in professional as well as academic occupational fields in the European context. In order to do so, the students acquire the competences in the application of research techniques, training and presentation skills. Moreover, the students gain the ability to process complex matters to improve communication-, expression- and discussion-skills. They acquire competences in the application of research techniques, academic writing, training and presentation skills. A special focus is placed on working in a multi-cultural team as well as in an interdisciplinary context. Excursions relevant to this specific module and potential internship opportunities by visiting our placement providers and partners is an integral part of this course. | | Workload: Attendance time: 28 h Self-study time: 122 h |

| Module M.EuCu.35: Internship | | |
| Learning outcome, core skills: During their 18-24-week internship the students gain insights into a potential future occupation in a European context. The internship offers the possibility to use practical and theoretic-methodological competences as well as the acquired expertise. Students acquire the competence to organize projects independently as part of their placement. | | Workload: Attendance time: 720 h Self-study time: 30 h |

| Module M.EuCu.37: Master Thesis Portfolio | | |
| <p>Learning outcome, core skills: The students create a portfolio ("Exposé") to present their research question, methodology, structure and bibliography. This portfolio summarizes the student project's preparatory work and forms a basis for the assignments in the fourth semester's master module.</p> <p>The students develop an overview of the respective field of their research and position themselves in it. Furthermore, they develop a methodical and theoretical framework for their work. Thereby, the module builds on the students' work in the methodology seminar.</p> <p>The students develop their portfolio on their own. However, it is recommended to consult with the supervisor and teachers of the respective attended universities.</p> | | <p>Workload: Attendance time: 0 h Self-study time: 150 h</p> |

| Module M.EuCu.41: Eurocompetence III: Research or Professional Project Application Preparation and Writing | | |
| <p>Learning outcome, core skills:</p> <p>This is the third seminar in the "Eurocompetence"-scheme. It builds on the modules „Eurocompetence I" and „Eurocompetence II" as well as the research seminars.</p> <p>This final Euroculture course is seen as a bridging step to the start of either a professional career or an academic career. The workshops facilitate the independent preparation and writing of an appropriate professional or research project application, depending on the future track selected. Students are introduced to the process of writing a project/grant proposal/application. It also offers them practical experience with writing a grant/project proposal and experience with assessing/comparing the proposals of their peers. Students will also gain knowledge about resources for project proposals available within the European Union context. Suitable professional project applications could be submitted in the framework of existing European programmes and examples from former students will be provided. The course offers students the possibility of choosing either between writing a professional project proposal or an academic project proposal (PhD). The involvement on partners in both tracks is essential in all Euroculture Programmes within the Consortium.</p> | | <p>Workload:</p> <p>Attendance time: 28 h</p> <p>Self-study time: 122 h</p> |

| Module M.EuCu.60: Analyzing Europe | | 2 WLH |
| Learning outcome, core skills: This module will teach students quantitative and qualitative methods of analyzing European societies and politics. Students will learn about a variety of existing datasets and data sources. They will get hands-on experience on how existing datasets are generated and how databases are structured, learn about their advantages and limits, and how they can be used to answer substantive questions about multilevel politics. This experience will allow students to design and conduct their own empirical projects, report results in a meaningful way, and reflect on the pros and cons of their approach. | | Workload: Attendance time: 28 h Self-study time: 182 h |
